# TALÉ

Plus39 presents "Talè".  
A new collection of cement tiles with a retro soul pays homage to the art of craftsmanship, taking up shades and features marked by time.

The tradition of Sicilian Artisan Majolica comes revisited and masterfully enhanced, mixing dusty colours with contemporaneity and cheerfulness.

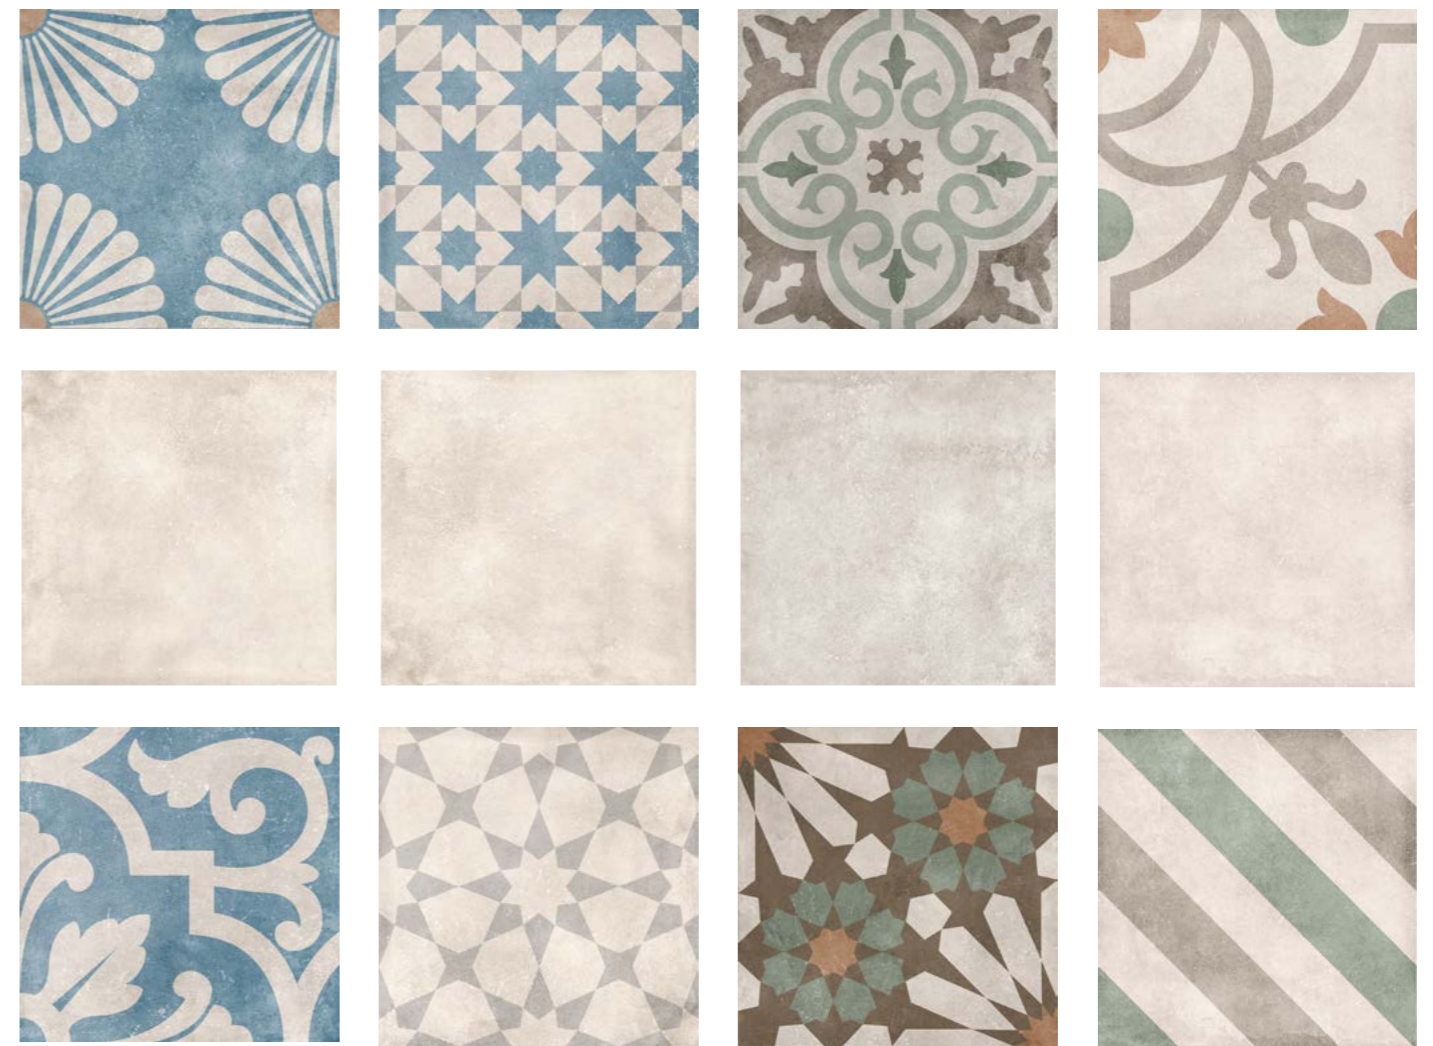

The dominant colours recall the nature of this picturesque island, which, combined with the different patterns, project the immense history architecture written over the centuries by different civilizations and cultures.

The ceramic that tells Italy.

Italy has awakened.

*Una combinazione  
di seducenti stimoli visivi  
e piacevoli sensazioni al tocco*
